

IMPLEMENTATION OF TQS INTEGRATION PROJECT

BACKGROUND

2007

Presented Report on Tobacco Control in OIC Member Countries in the 1st Islamic Conference of Health Ministries in Malaysia.

2008

Participated in the 3rd Session of the Conference of the Parties to the WHO FCTC.

2010

Collaborated with Regional Office for the Framework Convention Alliance for Tobacco Control for the Eastern Mediterranean (FCA)

2012

SESRIC, CDC, Bloomberg Foundation and WHO discussed cooperation possibilities in the field of tobacco control.

2013

* Participated in the TQS Conference in Geneva
* Adopted three resolutions on tobacco control in the 4th Islamic Conference of Health Ministries.

BACKGROUND

MoA was signed between National Foundation for the Centers for Disease Control and Prevention and SESRIC

2014

Aimed to serve as a mechanism to harmonize and standardize the monitoring of key tobacco control indicators regularly and promote sustainability and integration with other risk factors surveillance initiatives.

15 OIC MCs were selected for a pilot study.

COUNTRIES DECLARED COMMITMENT

15 Selected Pilot Study Countries

Azerbaijan, Cameroon, Egypt, Indonesia, Mauritania, Senegal, & Tajikistan

COUNTRIES DECLARED COMMITMENT

Additional Countries Declared Commitment

- Chad, Cote d'Ivoire, Gabon, Gambia, Sierra Leone, Mali, Niger, Togo

Will Declare Commitments

- Palestine

COUNTRY PROGRESS STATUS

COMPLETED: Azerbaijan, Cote d'Ivoire, Egypt, Gambia, Indonesia, Mauritania, Mali, Niger, Senegal, Sierra Leone and Togo

ON-GOING: Cameroon, Chad, Gabon and Tajikistan

Integration of the 'Tobacco Questions for Surveys (TQS)' into the National Surveys in Organization of Islamic Cooperation (OIC) Member States

What is TQS?

Tobacco Questions for Surveys (TQS) is a component of the Global Tobacco Surveillance System (GTSS), which was developed by the World Health Organization (WHO), Centers for Disease Control and Prevention (CDC), and other partners to assist countries in establishing tobacco control surveillance and monitoring programmes.

What is the TQS Integration Project?

The integration of TQS into the framework of on-going surveys in OIC Member States will serve as a mechanism to harmonize and standardize the monitoring of key tobacco control indicators regularly and promote sustainability and integration with other risk factors surveillance initiatives.

Currently there are only 7 OIC Member Countries which have already implemented the TQS and currently 15 OIC Countries have been selected for a pilot study under the framework of this project.

What is the objective?

The main aim of the project is to technically support the OIC Member Countries in their efforts to integrate the TQS into the on-going national surveys.
