Obligation to wear a mask

Awareness campaigns

Quarantine: stay at home and do not leave unless absolutely necessary

Creation of the Coronavirus Pandemic Special Fund to cover urgent expenses

Ensure the continued functioning of basic public administrations

Continuous supply of essential products to markets

including distance learning

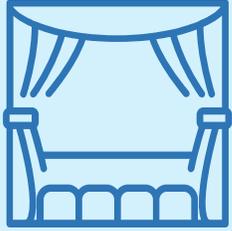

Making military medicine expertise support for civilian medicine

Provide an epidemiological surveillance system through a national center and regional centers for the emergency operation

General actions

Cancellation of sporting, cultural and artistic gatherings and events

Suspension of studies in schools and universities

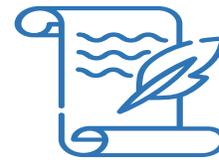

Creation of a steering committee to monitor the epidemiological situation

Closing of weekly markets and non-essential public stores

Temporary closure of mosques

Publication of a decree-law promulgating provisions relating to the state of health emergency

Closure of Moroccan airspace, sea and land

Suspension of court hearings and organization of remote sessions

Upon discovery of the first case in Morocco on 2 March

Preventive measures

Continuity of basic public services

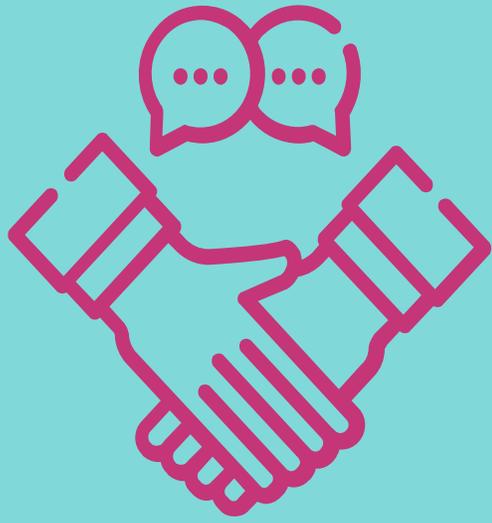

Precautionary and preventive measures for workers

- Limit the holding of meetings, while making sure to reduce the number of participants and using modern technologies "Video Conference"
- Provide online administrative services to users
- Organization of user reception operations in necessary cases
- Organize, if necessary, the attendance rotation process between public service employees;

Develop digital services to enable remote an attendance rotation

- The digital order office portal for administrative correspondence allows administrations and users to file their correspondence remotely with the services concerned in exchange for a digital receipt to confirm receipt.
- The electronic counter for administrative correspondence, which allows departments, in their relations with one another, to manage their incoming and outgoing correspondence,
- Activation of the "electronic service signing system" service

Social

measures

Distributing the health kit to women and people with disabilities ... in rural and semi-urban areas

Support persons with disabilities

Awareness campaigns for prevention

Preparation of Covid-19 website content for people with disabilities : <https://covid19.social.gov.ma>

- Dissemination of a set of awareness campaigns on the emergence of the corona virus in sign language on the COVID-19 website and via the ministry's social media;
- The launch of the "Salama" operation (Health kit), which consists of providing a health bag to people with disabilities, in 3 regions: Rabat-Salé-Kénitra, Tangier-Tétouan and Fès-Meknes.

Simplification of administrative procedures

- The launch of the **khadamaty** platform to process requests for obtaining a disability certificate. on the 6 jully 2020
- Designate the Centers for Orientation and Assistance for People with Disabilities (COAPD) as structures belonging to the Regional Commissions of Entraide Nationale (EN)

Support persons with disabilities

The development of integrated remote services

A press release was published by the Ministry concerning the pursuit of the activities of the various centers concerned with the education and training of disabled children, within the framework of "Support for the education of people with disabilities".

This program consists in carrying out the following operations :

- Communicate with parents and children with disabilities, and offer them educational activities that can be carried out at home
- Reeducation and functional rehabilitation specialists continue to provide rehabilitation guidance and instructions for people with reduced mobility, as well as instructions for correcting speech for persons with mental and communication difficulties.
- Provide psychological support to children and provide instructions and guidance to parents to overcome some psychological difficulties related to the period of home quarantine
- Give preventive advice and instructions in accordance with the health protocol approved by the Ministry of Health, through auxiliary and alternative methods, means and forms of communication, in an accessible language and using video technology for deaf people

Participants in this program:

297 associations specializing in the field of disability,

14,352 beneficiaries of the school support service included in the Social Cohesion Support Fund,

12,213 families were contacted;

3462 executives specializing in the fields of education, professional reintegration, rehabilitation and psychological support.

Support persons with disabilities

Integrated remote services: communication, counseling and guidance units available to families with autism

The ministry has set up **communication, counseling and guidance units** supervised by national authorities, set up as part of the Rafiq program for autism professionals.

The tasks of the cell are defined as follows:

- Provide advice and guidance to parents and provide them with educational and behavioral measures and procedures that can be implemented for the benefit of their children at home;
- Provide preventive instructions against Coronavirus in accordance with approved international practices for the benefit of people with autism;
- Provide answers to various questions of concern to people with autism.

Since the start of this process, the cells have received a number of phone calls from approximately 283 foster families of people with autism

Support persons with disabilities

Distance education seminar program

Establishment of a remote integrated services platform, comprising 22 educational capsules, intended for families and professionals concerned by simplified and accessible methods, provided by professionals with proven skills in the field, divided into 5 axes, namely:

1. Preschool education courses to enable children with intellectual disabilities to acquire basic skills and learning abilities
2. Reading, writing and math lessons for children with intellectual disabilities
3. Medical rehabilitation guidelines for people with cerebral palsy
4. A psychological counseling session for people with disabilities
5. Advice on developing the psychomotor skills and abilities of a disabled child

These episodes are broadcast, in addition to Arabic, in sign language and in Amazigh language.

support for the elderly

- **Distribution of “Salama kits” to social protection centers for the elderly :**

At the beginning of April, the Ministry of Solidarity, Social Development, Equality and the Family, in partnership with the United Nations Population Fund, launched the second phase of “Operation SALAMA”, at benefit of the elderly in social protection establishments, as they constitute the most vulnerable age group due to the emergence of the “Corona” virus (Covid-19).

The number of beneficiaries of this initiative reached **1,537 elderly people**, spread over the following regions: Rabat-Sale-Kénitra, Casablanca-Settat, Fès-Meknes and Tanger-Tétouan-Al Hoceima.

- **For awareness of the prevention of Covid 19:**

- Creation of a special website for the elderly;
- Preparation of an awareness capsule to enhance and intensify physical activity adapted to the elderly and people with reduced mobility, published on the website of the ministry as part of the quarantine

support for the elderly

- *Housing of homeless elderly people in social establishments and designated spaces*
- *Remote advice, guidance and support service*

As part of the support of the elderly and their host families, as well as to guide citizens towards the declaration of cases of elderly men and women in a situation of homelessness or in a difficult situation during the period of quarantine, a reference on the website for the elderly and on the website of the Ministry was made available to citizens:

- *A list containing the data and names of the senior managers and heads of the department for the elderly in the Ministry;*
- *A list of the names and telephones of the regional coordinators for Entraide Nationale;*
- *The guide to social protection institutions for the elderly has been drawn up by the competent authorities in this regard.*

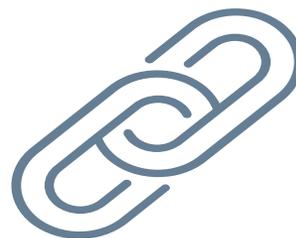

Women in difficult situation

Procedures for reporting violence against women

Reporting via the telephone numbers and electronic accounts of the Public Ministry in the various jurisdictions of the Kingdom, whose addresses are mentioned on the official website of the Presidency of the Public Ministry

Reporting via the electronic complaint platform of the public prosecutor via his account:
plaintes@pmp.ma

Reporting via the telephone platform "We are all with you" to the National Union of Moroccan Women at the free number 8350

The Ministry has launched a digital awareness campaign, in partnership with the United Nations Population Fund, to convey messages that help overcome psychological stresses during the quarantine period and raise awareness of the need to invest in the current context, to promote the values of coexistence, shared responsibility between spouses and positive parenting.

Women in difficult situation

Domestic violence data in the shadow of the pandemic

The courts of the Kingdom recorded during the period from March 20 to April 20, 2020, a total of **892 complaints** related to various types of violence against women (physical, sexual, economic and psychological ...), while the public Ministry's office was only engaged in 148 cases of this type, pending the end of Research into the remaining complaints.

According to the Presidency of the Public Ministry's Office of 30 April 2020, the number of prosecutions for violence against women decreased during the above-mentioned period ten times compared to the monthly average for this type of case (148 follow-ups instead of 1500 follow-ups per month under normal circumstances).
