AGENDA

14 November 2017, Tuesday		
Overview of Food Security Monitoring in the Context of the 2030 Sustainable Development Agenda		
09:00 - 09:30	:	**Registration**
09:30 - 10:00	:	**Opening Session** • Recitation of Verses from Holy Qur'an • Welcome Remarks by SESRIC and FAO Statistics Division • *Tour de Table*: Introduction of the Participants • Family Photo Session
10:00 - 10:30	:	**Overview and SDG Target 2.1** This session covers the 2030 Sustainable Development Agenda by highlighting the different emphasis on food security and nutrition and how it differs from the Millennium Development Goals. *Presenters:* SESRIC, FAO
10:45 - 12:30	:	**Country Experiences in measuring Food Security** This session gives the opportunity to the participants to share their experiences by focusing on food security data governance, institutional arrangements, and particularly the challenges faced by the participating National Statistical Offices and/or Ministries of Agriculture. *Presenters:* Cote d'Ivoire, Egypt, Iraq, Mali, Niger, Sudan, IOFS
12:30 - 14:00	:	**Lunch and Prayer Break**
14:00 - 15:45	:	**SDG Target 2.1 Indicators** During the session, an overview of food security measurement and introduction to the SDG target 2.1 indicators will be presented; particularly, the indicators of the prevalence of undernourishment (PoU) and the prevalence of moderate or severe food insecurity based on the Food Insecurity Experience Scale (FIES). This session also includes a 30-minute **Q&A section** after the presentations. *Presenter:* FAO
15:45 - 16:15		**Coffee Break**
16:15 - 18:00	:	**Focus on the PoU and FIES** This session informs the participants about the PoU methodology by considering what it measures, underlying model, and the data needed to calculate it. The session goes on with the FIES methodology by focusing on what it measures, its brief history, theoretical basis, survey modules and reference periods. The session also considers what the FIES adds to the toolkit of food security measures by concentrating on the FIES-based indicators to guide policy and programmes. The session is to be concluded with how information resulting from the use of FIES can be analysed together with other relevant information to understand causes and consequences of constrained food access. This session also includes a 30-minute **Q&A section** after the presentations. *Presenter:* FAO

AGENDA

15 November 2017, Wednesday **Preparing to Produce SDG Target 2.1 Indicators at the Country Level**	
09:00 - 11:00 :	**FIES and PoU** This session covers in detail the identification of appropriate survey vehicles for administering the FIES survey module, guidelines and challenges in collecting food consumption data to produce the PoU, steps to be taken to include the FIES in a survey and collect data, adaptation of FIES survey module and insertion in survey questionnaire, interviewer training, and how to accurately and effectively communicate the PoU by focusing on the relationship between the PoU and the Prevalence of Food Insecurity based on the FIES. This session also includes a 30-minute **Q&A section** after the presentations. *Presenter:* FAO
11:00 - 11:15 :	**Coffee Break**
11:15 - 12:30 :	**Demonstration on the Estimation of PoU** This session will cover live demonstration on how PoU is estimated using food consumption and demographic information collected in national household surveys. *Presenter:* FAO
12:30 - 14:00 :	**Lunch & Prayer Break**
14:00 - 16:15 :	**Demonstration on the FIES Data Analysis** This session will cover live demonstration of how data collected from FIES integrated surveys is analysed on computer for sound decision making concerning food security policies. *Presenter:* FAO
16:15 - 16:30 :	**Coffee Break**
16:30 - 17:30 :	**Closing and Wrap-Up Session** This session summarizes the topics covered during the Workshop and focuses on the next steps to be taken. A discussion is to be followed among the participants.
